MEMORANDUM FOR: SUPPLY PROCESS REVIEW COMMITTEE (PRC) MEMBERS

SUBJECT: Proposed DLMS Change 120, Revision to DLMS Supplement 846R Location Reconciliation Request to Support Commodity-Unique (Mapping Product) Data and to Support MILSTRAP DZN/DZP functionality.

We are forwarding the attached proposed change to DoD 4000.25-M, Defense Logistics Management System (DLMS), for evaluation and submission of a single coordinated Component position. The interface requirement relating to this proposed change is shown to assist in your internal coordination. However, omission of such a requirement does not relieve you of the responsibility to assure full coordination of the proposal within your Component.

Request you review the attached proposed change and provide your comments/concurrence to DLMSO not later than **30** days from the date of this memorandum. Expedited coordination is necessary to (1) support immediate Defense Logistics Agency (DLA) Distribution Standard System (DSS) to Defense Logistics Management System (DLMS) business rules and transactional interface by documenting DLA legacy system functionality for mapping products; and (2) to support DLMS implementation of MILSTRAP functionality for Document Identifier Codes DZN, Location Reconciliation Notification, and DZP, Location Reconciliation History Notification. If nonconcurrence is provided, please provide an alternate method to meet the requirement being addressed.

Addressees may direct questions to the DLMSO point of contact, Ms. Mary Jane Johnson, (703) 767-0677, DSN 427-0677, Email: Mary.Jane.Johnson@dla.mil. Others must contact their Component designated representative.

JAMES A. JOHNSON
Director
Defense Logistics Management
Standards Office

Attachment to Proposed DLMS Change 120
Revision to DLMS Supplement 846R Location Reconciliation Request to Support
Commodity-Unique (Mapping Product) Data and to Support MILSTRAP DZN/DZP functionality.

1. ORIGINATOR:

a. **Service/Agency:** Defense Logistics Agency (J-3731) and DLMSO

b. **Points of Contact:**

(1) For Commodity Unique (Mapping Product) Requirements: Ms. Mary Day, HQ DLA, Distribution and Reutilization Policy, Distribution Management Division, Materiel Accountability and Distribution Policy Branch (J-3731), DSN 427-2535, commercial telephone number 703-767-2535, e-mail Mary.Day@dla.mil.

(2) For MILSTRAP DI Code DZP/DZN functionality: Ms. Mary Jane Johnson, DLMSO, 703-767-0677, DSN 427-0677, Email: Mary.Jane.Johnson@dla.mil.

2. FUNCTIONAL AREA: Supply

3. REQUESTED CHANGE:

a. **Title:** Revision to DLMS Supplement (DS) 846R Location Reconciliation Request to Support Commodity-Unique (Mapping Product) Data and to Support MILSTRAP DZN/DZP functionality.

b. **Description of Change:** This purpose of this change to modify the DS for the 846R Location Reconciliation Request is: (1) to accommodate data requirements for commodity unique (mapping products) data ; (2) to accommodate the functionality of MILSTRAP Document Identifier Codes DZN, Location Reconciliation Notification, and DZP, Location Reconciliation History Notification, which were not previously incorporated into DLMS; and (3) administrative updates to include incorporating changes approved by Approved DLMS Change (ADC) 45 (July 5, 2001), Use of Both Ownership Code and Purpose Code in DLMS for Ammunition, and ADC 77 (August 26, 2002), Air Force Unique Management Coding for Materiel Management Aggregation Code (MMAC).

(1) Documents showing data mapping from MILSTRAP DI Codes DZN and DZP to DS 846R are at the enclosure.

(2) **Background for incorporation of commodity unique (mapping products) requirements:** In April, 1998, DLA assumed responsibility for worldwide inventory management, cataloging, and physical distribution of more than 67,000 hard copy map products (i.e., maps, charts and other geodetic materiel) produced by National Geospatial-Intelligence Agency (formerly National Imagery and Mapping Agency), as well as those produced by other U.S. government agencies and foreign countries. Existing inventory was moved to the new primary distribution facility, Defense Distribution Mapping Activity (DDMA), Richmond, VA, and Defense Supply Center Richmond (Product Center 9), VA assumed Inventory Control Point (ICP) responsibilities. DDMA uses DLA's Distribution Standard System (DSS) to perform distribution processes. DSCR Product Center 9 uses

another DLA legacy system, Defense Mapping Agency Automated Distribution Management System (DADMS), to perform ICP processes. DSS communicates with DADMS through a DLA-controlled FTP translator. DSS Location Reconciliation Requests (DI Code DZH) were modified to include 3 additional DADMS data elements (edition number, edition date, and product effective date) not accommodated by the Defense Logistics Standard System. The purpose of this proposed change is to modify Defense Logistics Management System (DLMS) Supplement 846R, Location Reconciliation Request, to accommodate these commodity-unique data. These changes are required to ensure that DSS interface with DADMS is uninterrupted as DSS migrates to the Defense Logistics Management System (DLMS), as well as to document commodity-unique business rules.

[Staffing Note: DLA senior executives decided June 6, 2003, that DADMS was not within the scope of current Business Systems Modernization (BSM) efforts to replace DLA's Standard Automated Materiel Management System (SAMMS). Incorporation of DADMS functionality into BSM will not be addressed until sometime after 2007.]

c. Procedures: Add the following codes/notes to the 846R Location Reconciliation Request, DLMS Supplement. **Data requirements submitted by DLA to support Commodity unique mapping requirements are at rows # 11 and #12 in the Table below.** All other changes are related either to DZP/DZN requirements, ADCs 45 and 77; or are administrative changes for consistency with other DLMS Supplements.

#	Location	Revision	Reason	Federal IC
1.	Federal Introductory Notes	<i>1. Distribution depots and storage activities use this transaction set to transmit location reconciliation request transactions to owners and managers.</i>	Transaction is no longer limited to requests.	Revision Required
2.	DLMS Introductory Notes	Revise DLMS note 1 to read as follows: <i>1. Distribution depots and storage activities use a single occurrence of this transaction set to transmit either location reconciliation request, location reconciliation notification, or location reconciliation history notification transactions to one owner/manager.</i>	To identify expanded capability.	No update Required
3.	DLMS Introductory Notes	This DLMS Supplement incorporates the Proposed DLMS Change and Approved DLMS Change (ADC) listed. PDC/ADCs are available from the DLMSO website: http://www.dla.mil/j-6/dlmsso/changes - PDC 120, Revision to DLMS Supplement 846R Location Reconciliation Request to Support Commodity-Unique (Mapping Product) Data and to Support MILSTRAP DZN/DZP functionality. - ADC 45, Use of Both Ownership Code and Purpose Code in DLMS for Ammunition - ADC 77, Air Force Unique Management Coding for Materiel Management Aggregation Code (MMAC)	Identifies DLMS Changes included in DLMS Supplement.	No Update Required

#	Location	Revision	Reason	Federal IC
4.	1/BIA02/020	<u>Add code to BIA 02</u> Add code ZZ- Mutually Defined and DLMS Note: <i>“Use to identify Location Reconciliation History Notification transaction. Storage activity sends to owner/manager to advise of the number of transaction history transactions being forwarded .(MILSTRAP DI Code DZP). An ANSI data maintenance action will be taken to obtain a more appropriate code for use in a future version/release.”</i>	Identifies Location Reconciliation History Notification transaction.	Revision required.
5.	1/BIA02/020	<u>Add code to BIA 02</u> Add code X4 - Summary Report and DLMS Note: <i>“Use to identify Location Reconciliation Notification transaction. Storage activity sends to owner/manager to advise of the number of Location Reconciliation Request transactions being forwarded. (MILSTRAP DI Code DZN)”</i> .	Identifies Location Reconciliation Notification transaction.	Revision required.
6.	1/BIA02/020	<u>Code LC- revise DLMS note as follows:</u> <i>Use to identify location reconciliation request transactions (MILSTRAP DI Code DZH).</i>	Administrative change.	No update Required
7.	1/N101/080	<u>Change Federal note to the following:</u> “Use any code.”	DLMS Supplement authorizes specific qualifiers.	Revision required.
8.	1/LQ01/150	<u>Change Federal note to the following:</u> “Use any code.”	DLMS Supplement authorizes specific qualifiers.	Revision required.
9.	2/LIN02/010	<u>Change Federal note to the following:</u> “Use any code.”	DLMS Supplement authorizes specific qualifiers.	Revision required.
10	2/LIN02/010	<u>Add code and code note to LIN 01:</u> Add code ZZ - Mutually Defined and DLMS Note: <i>“Use with transactions reporting the number of location reconciliation notification transactions to comply with ANSI syntax requirements.”</i>	Satisfies X12 requirements.	No update required

#	Location	Revision	Reason	Federal IC
11	2/LIN02/010	<p>Authorize use of additional data element 350 (Assigned Identification) code value to identify the commodity (mapping)-unique Edition Number and add the following DLMS note:</p> <p>YP Publication Number</p> <p>Add New DLMS Note 2: “Use in DLA mapping location reconciliation requests to identify the mapping product Edition Number. An ANSI data maintenance action will be taken to obtain a more appropriate code for use in a future version/release”.</p>	Authorizes use of Assigned Identification code value YP to identify the Edition Number associated with the DLA map products.	DS change only
12	2/DTM01/100	<p>Authorize use of additional data element 374 (Date/Time Qualifier) code values to identify the following DLA map product-unique attributes, and add the accompanying DLMS notes:</p> <p>171 Revision</p> <p>Proposed DLMS Note: “Use in DLA DDMA location reconciliation requests to identify the mapping product Edition Date. Each DLA DDMA location reconciliation request should include <u>either</u> an Edition Date (used in conjunction with 2/LIN02/010 Edition Number) or a Product Effective Date, but not both.”</p> <p>152 Effective Date of Change</p> <p>Proposed DLMS Note: “Use in DLA DDMA location reconciliation requests to identify the cyclical map Product Effective Date. Each DLA DDMA location reconciliation request should include <u>either</u> an Edition Date (used in conjunction with 2/LIN02/010 Edition Number) or a Product Effective Date, but not both.”</p>	Authorizes use of Date/Time Qualifier codes 171 and to identify the DLA map product Edition Date and the Product Effective Date.	DS change only
13	2/REF01/140	<p><u>Change Federal note to the following:</u></p> <p>“Use any code.”</p>	DLMS Supplement authorizes specific qualifiers.	Revision required.
14	2/LQ01/270	<p><u>Change Federal note to the following:</u></p> <p>“Use any code.”</p>	DLMS Supplement authorizes specific qualifiers.	Revision required.

#	Location	Revision	Reason	Federal IC
15	2/PTY01/320	<u>Add code and code note to PTY 01</u> Add code 46 -Total Transactions and DLMS Note: “ <i>Must use with location reconciliation notification transactions (1/BIA01/020 codes X4 and ZZ) to indicate the number of history or location reconciliation request transactions submitted.</i> ”	Identifies number of location reconciliation notification transactions submitted.	Revision required.
16	2/LQ01/376	<u>Change Federal note to the following:</u> “Use any code.”	DLMS Supplement authorizes specific qualifiers.	Revision required.
17	2/LQ01/376	<u>Revise LQ01 DLMS note 1 as follows:</u> Use either code 99 or A1 (but not both), except for ammunition where both codes may be used. (Use of both codes for ammunition is a DLMS enhancement (see introductory DLMS note 4a).	Change IAW ADC 45, Use of Both Ownership Code and Purpose Code in DLMS for Ammunition.	DS change only.
18	2/LQ01/376	<u>Add qualifier GQ, Group Qualifier Code, as follows:</u> GQ Group Qualifier Code DLMS Note: Use to identify the MMAC for NSNs to be managed by a specific manager (i.e., system, program, aggregation, selected FSC, technology group). This is an Air Force-unique data element, meaningful to the Air Force only. Non-Air Force Components perpetuate without action. A data maintenance action was approved in version 5010. The approved code/name is “MAC-Materiel Management Aggregation code”. The code source is identified as the Air Force Manual (AFMAN) 23-110, Volumes 1 and 2.	Change IAW ADC 77, Air Force Unique Management Coding for Materiel Management Aggregation Code (MMAC)	DS change only.

4. REASON FOR CHANGE: This change revises DS 846R to: support component-level DLMS implementation for the DLA BSM effort for mapping products; incorporate MILSTRAP DZN/DZP functionality in DLMS; incorporate ADC 45 and ADC 77 revisions; and makes administrative revisions for consistency with other DS.

5. ADVANTAGES AND DISADVANTAGES:

a. Advantages: Supports component-level DLMS implementation and MILSTRAP functionality.

b. Disadvantages: None identified.

6. IMPACT:

a. Data Content/Procedures: DAAS maps and Component systems must incorporate additional capability.

b. Publication(s):

(1) DLMS Supplement, DAASC Maps, and corresponding Federal IC must be updated.

(2) DoD 4000.25-2-M, Volume 2 Supply, Revise Chapter 6 Physical Inventory Control to add a new section C6.6.2.3.4, Control of Location Reconciliation, renumber current section C6.6.2.3.4 as C6.6.2.3.5, and renumber all subsequent paragraphs. Add DLMS, Volume 2, Chapter 6, section C6.6.2.3.4, Control of Location Reconciliation as follows:

“C6.6.2.3.4 Control of Location Reconciliation. Storage activities and owners/managers will establish the following provisions for controlling location reconciliation:

C6.6.2.3.4.1 Location Reconciliation Notification Transaction. Storage activities will advise intended recipients (owners/managers) of the number of transactions being forwarded, and cut-off date, using DS 846R Location Reconciliation Notification transaction.

C6.6.2.3.4.2 Location Reconciliation History Notification transaction. When transaction history is required with Location Reconciliation, the storage activity will advise intended recipients (owners/managers) of the number of historical transactions being forwarded, and the cutoff date, using DS 846R Location Reconciliation History Notification transaction.

C6.6.2.3.4.3 Owners/managers will use these transactions to determine receipt of all Location Reconciliation and historical transactions. Where the number of transactions to be transmitted does not match what was actually received, the owner/manager may reject the Location Reconciliation and Location Reconciliation History Notification transactions using DS 824 with Reject Advice Code AY”.
